

## Academic Support

The International School of Paphos is dedicated to motivating our students to achieve academic success. Our boarding students receive all the support they need to encourage them to thrive academically and develop a true love of learning that will carry over into other areas of their lives.

### Homework and Supporting Study at our Boarding School

During the day, boarding school and day-school students study together. After regular classes have ended for the day, boarding school students have assigned study periods throughout the evening interspersed by activities, dinner and break times. During the study times, they focus on their homework, with access to tutors for support and guidance.

### Learning Experiences Beyond the Classroom

Learning does not simply follow a standard curriculum at The International School of Paphos. Our students gain a global education by learning from one another. We also offer a range of activities and trips during evenings and at weekends, which include outdoor adventures, sporting activities, cultural visits and historical trips.

Our goal is for each student to graduate with healthy and beneficial habits, enabling them to lead fulfilled, successful lives.

To further support our students' health and well-being, we have an on-site nurse and school counsellor available to our students. Should they require medical assistance at any time, our local hospitals are just minutes away. All international boarding students sign up for a private Health Insurance Plan.
