

# THE INTERNATIONAL RESIDENTIAL SUMMER CAMP

## IN CYPRUS | 2023

### two-week cycle programme

Come and join us for FUN in the SUN this Summer! Located in the picturesque town of Paphos, our well-established Summer Camp offers a broad programme of activities for your children. In our excellent multi-purpose facilities, they will develop their English language skills, whilst meeting friends from multi-cultural backgrounds and enjoying the beauty of the island of Cyprus. Our dedicated and professionally trained staff ensure that children have fun while learning in a safe environment, infused with a positive and inclusive atmosphere.

We look forward to welcoming you and ensuring that you have the best summer experience!

# OUR PROGRAMME AT A GLANCE

## English Learning

Highly engaging, fun English language learning. Lessons are designed to develop reading, listening, speaking and writing skills. Our English teaching team ensures that each lesson has clear learning outcomes, embracing different learning styles. The knowledge that the students, who come from all over the world, acquire is then practised throughout the day in the activities in which they participate.

## Sports

The Sports activities aim to develop students' physical strength, whilst teaching the key skills of teamwork and fair play. Physical activity helps in building confidence and leadership skills which can equip young people with the ability to set targets that lead to higher self-esteem and better social interaction. Using our multi-purpose sports facilities, children will be able to take part in sports such as tennis, football, basketball, swimming, badminton, and more.

## Mathematics & Computers

Through our Mathematics and Computing programme we help students advance their knowledge and develop their creative thinking and problem-solving skills through fun games and puzzles. Students learn how to safely use the internet and navigate through age-appropriate websites, while learning basic skills in various programmes.

## Creative Arts

Our activities boost participants' creativity and emphasise self-expression, imagination and personal initiative. They allow students to develop their skills and express themselves through arts and crafts, dance, music and drama. Students have the opportunity to use a variety of materials to create 2D and 3D pieces of art-work from painting, collage to sewing and sketching. They also focus on movement, role-play and improvisations, developing a deeper understanding of auditory cues.

## Science & Environment

When we see, we remember. But when we do, we understand. Our activities will extend students' knowledge in Earth Science, Physics and Biology, deepening their science processing skills through their natural curiosity, experimentation and discovery. We aim to place a strong emphasis not only on developing a desire to know more about nature, but also on acquiring a deep respect for it and realising our responsibility as individuals, as a school community and as citizens of the world. We encourage children to adopt sustainable habits and to engage them in meaningful, fun-filled learning through active participation.

participants are  
organised in  
small groups  
based on age

## Cultural Visits & Excursions

The children will participate in fun and enjoyable excursions allowing them to visit cultural, historical sights and a number of exciting places such as the the Mosaics, the Paphos Waterpark and Environmental Centres.

customised  
programmes can  
be prepared  
upon request

**We encourage students  
to develop life skills, such as  
independence, self-  
confidence, respect towards  
themselves and others and  
on forming friendships.  
They will improve their  
language skills and  
creativity, while having fun.**

# WHY CYPRUS WHY PAPHOS WHY ISOP

Cyprus is situated at the crossroads of three continents (Asia, Africa and Europe). It is an ideal educational destination. Cyprus is the fifth safest destination in the world and is renowned for its warmth and hospitality. It offers stunning scenery, idyllic beaches and has approximately 326 days of sunshine!

The International School of Paphos (ISOP) is located in the picturesque town of Paphos, known for its rich culture and heritage. The coastal town of Paphos boasts a charmingly intimate atmosphere and perennial warm weather which, combined with the easy-going Mediterranean way of life, provides the ideal environment for learning.

The town of Paphos is included in the official UNESCO list of cultural and natural treasures of the world heritage. Its archaeological sites are amongst the most inspiring and exciting sites on the island of Cyprus.

Paphos is also well-known for its beautiful countryside, modern architecture, as well as for its variety of sporting activities. This safe and cosmopolitan resort has something for everyone at any time of the year; a haven that offers diverse outdoor activities which will inspire students to engage in extra-curricular activities.

The location of ISOP offers easy accessibility to all other towns on the island, and is only a ten-minute drive to Paphos International Airport and approximately 1hr15 minutes from Larnaca International Airport.

ISOP was founded in 1987 as a co-educational day and boarding school located in the town centre. The school developed gradually throughout the late 1980s and 90s and experienced rapid growth at the turn of the 21st Century. It is now situated in Anavargos Village, on the outskirts of Paphos. Our purpose-built state-of-the-art facilities were completed in 2006.

The International School of Paphos is:

- recognised by the Cyprus Ministry of Education, Sport and Youth
- an approved Centre of Cambridge Assessment International Education
- an approved Centre of Pearson / Edexcel
- an approved Centre of European Computer Driving Licence (ECDL)
- an ECO School
- a PASCH School
- LAMDA exams
