Activity Overview – Young Groups (4-11)

Set the Scene

Highly engaging, project-based and fun English language learning activities.

Think Green

Raising awareness about environmental issues and encouraging children to reduce environmental impact as individuals, as a school community, and as global citizens.

Greek Groove

An opportunity for children to learn about Greek culture including food, games, traditional dance, the Greek language, history, and more.

Science Madness

Activities that extend students' knowledge in earth science, physics and biology while developing their scientific process skills through experimentation.

What's Cooking?

Cooking with children is a great way to teach them about good nutrition, seasonal ingredients, meal planning, food preparation and reading food labels.

Get Crafty

Children explore creativity using a variety of materials to create both **2D and 3D artwork**, including painting, collage, sewing and sketching.

Brain Teasers

Fun games and puzzles that help students develop mathematical thinking and problem-solving skills.

Bits and Bytes

Children learn how to safely use the internet, navigate age-appropriate websites and develop basic skills in **Microsoft Office**.

About Us

Activities designed to help children build **self-confidence, self-respect and respect for others**, while promoting positive relationships.

Team Building

Students develop teamwork and collaboration skills through engaging group activities and games.

PE Games

A wide range of sports and physical activities including **basketball, football, athletics, swimming and more.**

Stay in Tune

An opportunity for children to explore their creativity through **music and rhythm**, helping develop musical skills and confidence.

Activity Overview – Leadership Track (11-16)

Set the Scene

Highly engaging, project-based and fun English language learning activities.

Think Green

Raising awareness about environmental issues and encouraging students to reduce environmental impact as individuals, as a school community and as global citizens.

Greek Groove

An opportunity for students to learn about Greek culture including food, games, traditional dance, the Greek language, history and more.

Science Madness

Activities that extend students' knowledge in **earth science, physics and biology**, while deepening scientific investigation skills through experimentation.

Students will also have the opportunity to complete the **official CREST Award** (*available at an additional cost*).

What's Cooking?

Cooking activities that teach students about **nutrition, seasonal ingredients, meal preparation and reading food labels.**

Students will also explore **the science of food and culture**, including the chemistry of cooking, sustainable sourcing and waste reduction.

Get Crafty

Students will use a variety of materials to create **2D and 3D artwork**, including painting, collage, sewing and sketching.

Brain Teasers

Fun games and puzzles designed to strengthen **mathematical thinking and problem-solving skills.**

Digital Skills

Students will work on **ECDL topics and Canvas**, developing digital literacy while collaborating with other subjects through the **Creative Commerce Lab.**

About Us

Activities focused on building **self-confidence, self-respect and respect for others**, helping students develop a positive sense of identity and wellbeing.

Team Building

Developing teamwork and leadership skills through engaging **group challenges, games and collaborative tasks.**

PE Games

A wide range of physical activities including **basketball, football, athletics, swimming and more.**

Creative Commerce Lab (Marketing)

Through the **Launch Lab**, students will:

- invent a product
- design a logo
- create marketing posters
- explore pricing strategies

Students will present their product and develop **entrepreneurial and presentation skills.**
